PART A—COPYRIGHT ASSIGNMENT FORM

Company or other forms may not be substituted for this form. U.S. Government employees whose work is not subject to copyright may so certify by signing Part B below. For foreign governments that reserve copyright, please see instructions on reverse side.

1. The undersigned, desiring to publish the above paper including the published version in any format in Biotechnology Progress, which is jointly published by the American Institute of Chemical Engineers, known as AIChE, and the American Chemical Society, known as ACS, hereby transfers the copyright in the above paper to AIChE and to ACS.

2. The undersigned retains the following rights in the paper:

a) All proprietary rights other than copyright, such as patent rights.

b) The right to reproduce, have reproduced, revise, adapt, prepare derivative works, present orally, or distribute the above paper for such purposes as teaching (including multiple copies for classroom use), scholarship or research, provided that (1) the source and ACS/AIChE's copyright are indicated; (2) the copies are not used in a way that implies ACS and/or AIChE endorsement of a product or service of an employer; and (3) the copies are not offered for sale, used for promotional or marketing purposes, or distributed on an external network without the written consent of ACS, which will handle copyright matters on behalf of ACS and AIChE.

c) In the case of work performed under U.S. Government contract, or by employees of a foreign government or its instrumentalities, ACS and AIChE grant the government royalty-free permission to reproduce all or portions of the above paper, and to authorize others to do so, for government purposes.

3. The undersigned warrants that the manuscript is the author's original work. If the work was prepared jointly, the undersigned agrees to inform co-authors of the terms of this agreement. The undersigned further warrants that the work has not been published before. (If excerpts from copyrighted works are included, the undersigned will obtain written permission from the copyright owners and show credit to the sources in the manuscript.) The undersigned also warrants that the manuscript contains no libelous or unlawful statements, and does not infringe on the rights of others.

4. In the event the above paper is not published by ACS and AIChE or is withdrawn by the undersigned before publication by ACS and AIChE, this agreement becomes null and void.

Employer for whom work was performed State Key Lab of Microbial Technology Date 2008/8/7

PART B—U.S. GOVERNMENT EMPLOYEE CERTIFICATION

If your work was performed under U.S. Government contract but you are not a U.S. Government employee, sign assignment form above and see Item 2(c).

This will certify that all authors of the above paper are employees of the U.S. Government and performed this work as part of their employment and that the paper is therefore not subject to U.S. copyright protection.

Authorized signature ____________________________ Title (if not author) ____________________________ Date ____________________________
