INDEX

Absorbent pads, 19
active materials in, 204–205
European regulation of, 197
iron oxide-based, 205–206
irradiation and, 105–106
testing, 205–206
Absorbers. See Oxygen control; Scavengers
Acceptance, consumer, 9, 14, 142, 166–174
of active packaging, 143
communication and, 143
education in, 169–171
of innovation, 168–169
risk/fear perception and, 171–174
Acetic acid, diffusion coefficient for, 46
Acetyltributyl citrate (ATBC), 96–97
Acquisition pattern analysis (APA), 161
ACTIPAK, 143, 188–189, 202
Active packaging, 17–28
as absorbent material, 204–205
acceptance of, 143
advantages/disadvantages of, 15–16
antimicrobials for, 20–21
carbon dioxide control in, 20–21
definition of, 17, 189
European standpoint on, 187–211
future of, 216–219
migration in, 200–207
moisture control and, 18–19, 25
oxygen control in, 19–20
as releasing material, 203–204
technologies in, 18
Additives
absorbent pads and, 105
in edible coatings, 29–30, 219
European regulation of, 192–193
Adhesion, of edible coatings, 39
Adhesives, 14, 105
Adjuvants, 93, 95–97
Advertising, packaging and, 10, 141
Aggregate discrete choice modeling, 160
Aging of the population, 215
Allyl isothiocyanate (AIT), 37
Aluminum, in high-pressure packaging, 69
Analytical target cascading, 167
Antagonistic cultures, 218, 220–222
Antimicrobials
active packaging and, 143
activity measurement for, 39–45
advantages/disadvantages of natural, 16
allyl isothiocyanate (AIT), 37
in biopolymers, 34–35
carbon dioxide control and, 20–21
chitosan, 34, 37
coatings for nonthermal processing,
47–48
consumer attitudes toward, 177
contact, 21
diffusion of, 45–47
in edible coatings, 29–52, 30,
31–38, 219–220
essential oils, 35, 37
evaluating effectiveness of, 217–218
future of, 217–218
ionizing radiation and, 26
lactoperoxidase system, 35, 36
lysozyme, 31, 34, 35, 36
MAP/RO and, 26
nisin, 34–35, 36
noncontact, 21
pediocin, 34, 36–37
plant extracts, 37–38
Antioxidants, 93, 95–96
Argon, in modified atmosphere packaging,
54–55, 61
Ascorbic acid, 19
Aseptic processing, 12, 81–82
Assortment size, 165–166
ATBC. See Acetyltributyl citrate (ATBC)
Atitudes
change model of, 169
multiattribute models of, 169
prior, in decision-making, 163–164
toward genetically modified foods, 174
Attitude theory, 168–169
Attractiveness, 168–169
