Index

a
abutment 25, 26, 127
adolescent 3, 18, 33, 59, 67, 105, 174
age 18, 65, 67, 121, 259, 263
aligner (orthodontic) 69, 286
alveolar deficiency 137, 141, 142
anaesthesia 7, 32, 53, 60
analgesics 7, 58
analogue 25, 26, 127
angle of insertion see insertion angle
ankylosis 1, 60, 144
anterio r openbite (AOB) 17, 63, 71, 167–169, 172–175, 181–185, 286
antibacterial prophylaxis see mouthwash
asymmetry 209, 227, 228, 286
audit 8, 34

b
baseplate (stent) 25–27
bicortical engagement 141, 265, 266
biomechanical side-effects see side-effects
body mass index (BMI) 18
bone biology 33
bone-implant contact 2, 33
breakage see fracture
buccal shelf 104, 110–113

c
 cancellous bone 15, 16, 21
canine
(ectopic) alignment 239–242
retraction 10, 63, 67–69
cant see occlusal cant
cementum 5, 6, 32
centreline 209, 210
chlorhexidine see mouthwash
clinical experience 43, 49
complications 3
cone beam computer tomography (CBCT) 27, 31, 43, 44
consent 33–35
Class II 63, 65, 101, 167
cortical (cortex)
density 15, 16, 18, 33
depth (thickness) 15–17
perforation 2, 21, 24, 31, 55
design features 1, 2, 21–24, 323
digital planning 27
dimensions 21, 49
direct anchorage 3, 22, 42, 59, 63–67, 137, 141, 211, 240
distalisation 101, 104–105, 110, 116, 121, 125–128
drilling see cortical perforation
e
ectopic teeth 239–242
expansion see rapid maxillary expansion (RME)
explantation 8, 59, 60
failure see mobility
fixation see intermaxillary fixation
fixed-functional appliance see orthopaedic appliance
force
amount 18, 33, 59, 142, 144, 170, 234
timing (latency) 2, 33, 59
vector (direction) 10, 41, 46, 63, 65, 67, 210
fracture 7, 21, 35, 55, 58
functional appliance see orthopaedic appliance
gender 15
growth modification see orthopaedic appliance
gingival punch see mucotome
guide cylinder 25, 26, 54
guidance system see stent
Gurin lock 127, 128

h
handpiece 31, 55, 56
Haas (RME) expander 259, 281
headgear 3, 4, 34, 59, 63, 101, 105, 173, 209
hybrid RME 264, 271
hygiene (oral) 8, 17, 58, 170, 176
hyperplasia (soft tissue) 8
hypodontia 137, 141

i
iatrogenic see complications and root trauma
incisive canal 43, 66
incisor
intrusion 63, 167, 169, 170, 227
retraction 4, 63–69
indemnity (insurance) 33
infection 6, 8, 54
inflammation 8, 17, 323
Infinitas system 22–27
infra-zygomatic crest 5, 6, 167
insertion
angle 25, 31, 46, 145, 162, 322, 323
site 5, 41, 45, 46, 53, 58, 60, 176, 240
speed 56
timing 3, 46
torque see torque
instructions (patient) 35, 58
intermaxillary
  fixation (IMF) 285, 302, 322–325
  fixation (IMF) screw 285, 286
traction (elastics) 285, 322–324
interproximal space 7, 16, 48
intrusion see anterior openbite and incisor intrusion

l
labial frenectomy 169, 323
latency see force timing
lateral openbite 2, 67, 69, 210, 228
lingual traction 142

m
mandible 5, 16, 24, 104, 110–113, 182
manual insertion 60
MARPE (mini-implant assisted rapid palatal expansion) 264
MMPA (maxillo-mandibular planes angle) 17, 167, 173
maxillary sinus see sinus medical contraindications 5
memory (RME) screw 261
mid palate 3, 5, 6, 17, 18, 43, 67, 101, 140, 141, 161, 162, 165
migration (mini-implant) 3, 8, 21, 35
mini-plate 1, 104, 167
mobility 5, 35
molar mesialisation see protraction
mouthwash 54, 58
MSE (maxillary skeletal expander) 261
mucogingival junction 17, 45, 46, 170
mucosal-borne expander see Haas expander
mucotome (soft tissue punch) 23, 54

n
Nance (palatal) arch see transpalatal arch
nasal airflow 263
nasopalatine vessels 43, 65
neurovascular tissues 6, 43
Newton 15
o
occlusal cant 209, 227, 234, 286
openbite see AOB or lateral openbite
orthognathic surgery 167, 285, 286, 302, 322–325
orthopaedic appliance 101
osseointegration 1, 2, 60
osteotomy see orthognathic surgery
overbite (deep) 63, 65–67, 137
p
pain 6–8, 35, 53
palatal clip appliance 127
percussion (tooth) 32, 53, 57
perforation see cortical perforation
peri-implantitis see inflammation
periodontal recession 259, 263
planning 25, 41–44
powerarm 49, 63–69, 116, 137, 142, 145, 210
pre-drilling see cortical perforation
protraction (molar) 137, 140–145
pulp vitality 167
pushcoil 127
q
quadhelix 176
r
radiographs 25, 41–44
rapid maxillary expansion (RME) 176, 259–267, 271, 274, 280–283
regional acceleratory phenomenon (RAP) 285
reinsertion 57, 58
removal see explantation
retraction see incisor retraction
risks 4–9
RME see rapid maxillary expansion
tooth (single) 232
root divergence 5, 46, 48, 67, 141, 182, 232
proximity 6, 24, 31, 32, 35
trauma 32
s
scissors bite 227
self-drilling 2, 5–7, 21, 23, 56
self-tapping 2, 21
shape see dimensions
side-effects (biomechanical) 2, 3, 10, 63, 67, 137
sinus (maxillary) 6, 42, 46, 167
smoking (cigarette) 18
soft tissues 8, 17, 44–46
stability
  primary 5, 15, 16, 18, 21, 33, 57, 59, 67
  secondary 5, 15, 16, 18, 33, 59, 323
stent (guidance) 22, 24–27, 31, 49, 54
sterilisation 23, 35, 53
success rate 3–5, 15, 16, 21, 31, 60
surgery first 285, 286

t
T zone (mid palate) 43, 44
TAD (Temporary Anchorage Device) 2
Temporomandibular joint (TMJ) 15, 168
terminology 2
timing see insertion timing
titanium 2, 7, 58
tobacco smoking see smoking
topical anaesthetic 53
torque 6, 7, 15, 16, 21, 24, 31, 56–59
traction see force
training (staff) 35
transpalatal arch (TPA) 67, 176, 182, 184, 239
Twin Block see orthopaedic appliance
