Aims and Scope: BIOPOLYMERS publishes original research papers and review articles in the general area of macromolecular structure and function, as well as biologically relevant model systems. Manuscripts should report on studies that examine biologi- cal macromolecules (naturally occurring and designed), their inter- actions, reactions, and macromolecular assemblies at structural, chemical, and physical levels. The Journal strives to publish high- impact papers that will significantly enhance our understanding of the chemistry and/or the biology of the systems under investiga- tion. Reports describing techniques that could be applied to the study of biological macromolecules will be considered for publica- tion only if they will have broad utility to the biochemical and bio- physical research community. For more information, please visit wileyonlinelibrary.com/biopolymers.

Information for subscribers: BIOPOLYMERS is published in 18 issues per year. Institutional subscription prices for 2016 are: Online US$1,481 (US) and Rest of World), £934 (Europe), £728 (UK). Prices are exclusive of tax. Asia-Pacific GST, Canadian GST/HST and European VAT will be applied at the appropriate rate. For more information on current tax rates, please go to www.wileyonlinelibrary.com/tax-vat. The price includes online access to the current and all online back files to January 1st 2012, where available. For other pricing options, includ- ing access information and terms and conditions, please visit wileyonlinelibrary.com/access.

Journal Customer Services: For ordering information, claims and any inquiry concerning your journal subscription please go to wileyonlinelibrary.com/ask or contact your nearest office: Americas: Email: cs-journals@wiley.com; Tel: +1 800 835 6770 (toll free in the USA & Canada). Europe, Middle East and Africa: Email: cs-journals@wiley.com; Tel: +44 (0) 1865 793005. Asia Pacific: Email: cs-journals@wiley.com; Tel: +65 8511 8000. Japan: For Japanese speaking support, Email: cs-japan@wiley.com; Tel: +81 3 3885 8000. All prices are subject to change. (Thomson ISI) 

Production Editor: email: jsp@wiley.com (USA) BIOPOLYMERS accepts articles for Open Access publication. Please visit http://olabout.wiley.com/WileyData/Section/id-400241.html for further information about Open Access. View this journal online at wileyonlinelibrary.com/biopolymers

Note to NIH Grantees: Pursuant to NIH mandate, Wiley-Blackwell will post the accepted version of contributions authored by NIH grant-holders to PubMed Central upon acceptance. This accepted version will be made publicly available 12 months after publication. For further information, please visit www.wiley.com/go/nihmandate.

Wiley’s Corporate Citizenship initiative seeks to address the environmental, social, economic, and ethical challenges faced in our business and which are important to our diverse stake- holder groups. Since launching the initiative, we have focused on sharing our content with those with need, enhancing commu- nity philanthropy, reducing our carbon footprint, creating global guidelines and best practices for paper use, establishing a vendor code of ethics, and engaging our colleagues and other stakeholders in our efforts. Follow our progress at www.wiley.com/go/citizenship.
t-Boc Synthesis of Huwentoxin-I Through Native Chemical Ligation Incorporating a Trifluoromethanesulfonic Acid Cleavage Strategy
Parashar Thapa, Chino C. Cabalteja, Edwin E. Philips III, Michael J. Espiritu, Steve Peigneur, Bea G. Mille, Jan Tytgat, Theodore R. Cummins, and Jon-Paul Bingham
