OVERVIEWS

Nornostocine congeners as potential anticancer drugs: An overview
Chita R. Sahoo, Sudhir K. Paidesetty, and Rabindra N. Padhy

Evolution of uracil based thymidine phosphorylase inhibitors, SAR and electronic correlation: revisit
Atukuri Dorababu

RESEARCH ARTICLES

Topical hydrogels with escin β-sitosterol phytosome and escin: Formulation development and in vivo assessment of antihyperalgesic activity
Ljiljana Djekic, Bojan Čalija, Ana Micov, Maja Tomic, and Radica Stepanovic-Petrovic

Anticancer activity of newly synthesized 1,1-disubstituted cyclohexane-1-carboxamides: in vitro caspases mediated apoptosis activators in human cancer cell lines and their molecular modeling
Walaa Hamada Allah, Asmaa Salman, and Samah Sabry Saad

Effect of ISO1957, a para-coumaric acid derivative on pharmacokinetic modulation of diclofenac through oral route for augmented efficacy
Anjna Sharma, Abhishek Gour, Shipra Bhatt, Santosh K. Rath, Tanveer A. Malik, Ashish Dogra, Payare L. Sangwan, Surinder Koul, Sheikh Tasduq Abdullah, Gurdarshan Singh, and Utpal Nandi

Modified-release oral pellets for duodenum delivery of doxycycline hyclate
Ying Huang, Zhengwei Huang, Mingjun Wu, Yanpeng Liu, Cheng Ma, Xuejuan Zhang, Ziyu Zhao, Xuequn Bai, Hu Liu, Lili Wang, Xin Pan, and Chuanbin Wu

Optimization of pyrrolo[3,4-f]indole-5,7-dione and indole-5,6-dicarbonitrile derivatives as inhibitors of monoamine oxidase

Antidiarrheal, vasorelaxant, and neuropharmacological actions of the diterpene tilifodioliode

Curcumin mitigates the epithelial-to-mesenchymal transition in biliary epithelial cells through upregulating CD109 expression
Junyu Fan, Qian Wang, Zhuoya Zhang, and Lingyun Sun

Montelukast modifies simvastatin-induced myopathy and hepatotoxicity
Mohammad S. Hareedy, Esraa A. Ahmed, and Marwa F. Ali
