AIMS AND SCOPE

Movement Disorders Clinical Practice is an online-only journal committed to publishing high quality peer reviewed articles related to clinical aspects of movement disorders which broadly include phenomenology (interesting case/case series/rarities), investigative (for e.g. genetics, imaging), translational (phenotype-genotype or other) and treatment aspects (clinical guidelines, diagnostic and treatment algorithms). In addition the journal will encourage the publication of educative material (solicited and unsolicited reviews), clinical-pathological cases, drug trials results and task force reports related to the field of movement disorders. MDCP encourages the submission of multimedia material accompanying all types of articles.

Copyright and Copying
