SECTION EDITORS
Original Research Peter Cameron, Angela Chiew, Kevin Chu, Jaimi Greenslade, Kimberly Humphrey, Peter Jones, Gerben Keijzers, Biswadev Mitra, Joseph Ting, Viet Tran, Katie Walker

Paediatric Emergency Medicine Franz Babl, Gary Browne, Simon Craig, Stuart Dalziel, Sally McCarthy

Aims and Scope: Emergency Medicine Australasia is the official journal of the Australasian College for Emergency Medicine (ACEM) and the Australasian Society for Emergency Medicine (ASEM), and publishes original articles dealing with all aspects of clinical practice, research, education and experiences in emergency medicine.

Original articles are published under the following sections: Original Research, Paediatric Emergency Medicine, Disaster Medicine, Education and Training, Ethics, International Emergency Medicine, Management and Quality, Medicolegal Matters, Prehospital Care, Public Health, Rural and Remote Care, Technology, Toxicology and Trauma. Accepted papers become the copyright of the journal.

Address for Editorial Correspondence: Emergency Medicine Australasia, John Wiley & Sons Australia, Ltd, 155 Cremorne Street, Richmond, Victoria 3121, Australia (tel: (+61) 3 9274 3127; fax: (+61) 3 9274 3390; email: ema.eo@wiley.com).

Instructions for Authors: Please refer to the Instructions for Authors on the Journal homepage at http://wileyonlinelibrary.com/journal/ema prior to submitting your manuscript. Manuscripts should be submitted online at http://mc.manuscriptcentral.com/ema.

Disclaimer: The Publisher, College, Society and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal; the views and opinions expressed do not necessarily reflect those of the Publisher, College, Society and Editors, neither does the publication of advertisements constitute any endorsement by the Publisher, College, Society and Editors of the products advertised.

This journal is available online at Wiley Online Library.

Visit wileyonlinelibrary.com to search the articles and register for table of contents and email alerts.

Wiley is a founding member of the UN-backed HINARI, AGORA, and OARE initiatives. They are now collectively known as Research4Life, making online scientific content available free or at nominal cost to researchers in developing countries. Please visit Wiley's Content Access – Corporate Citizenship site: http://www.wiley.com/WileyCDA/Section/id-390082.html.

Wiley's Corporate Citizenship initiative seeks to address the environmental, social, economic, and ethical challenges faced in our business and which are important to our diverse stakeholder groups. Since launching the initiative, we have focused on sharing our content with those in need, enhancing community philanthropy, reducing our carbon impact, creating global guidelines and best practices for paper use, establishing a vendor code of ethics, and engaging our colleagues and other stakeholders in our efforts. Follow our progress at www.wiley.com/go/citizenship.
The Australasian Society for Emergency Medicine (ASEM) starts, helps, supports, defends, unites, publishes, advises, and generally does good things as a professional organisation for emergency medicine professionals.

The first of ASEM's successes was starting the Australasian College for Emergency Medicine (ACEM). And it provided a vehicle for the Emergency Life support course to get started. ASEM has helped research in emergency medicine by providing prizes for research-based presentations at scientific meetings. It helps members with $200 off the cost of the annual Spring Seminar on Emergency Medicine and supports the conference long term.

During the long running dispute over contracts in Queensland, ASEM helped defend the conditions of emergency doctors.

There is a great and dispersed specialist and non-specialist workforce in emergency medicine and ASEM works to unite this workforce. ASEM began and remains open to all emergency doctors and now offers membership to students, nurses and institutions. ASEM is part owner of the scientific journal, *Emergency Medicine Australasia*, and publishes a directory of Australasian Emergency Departments as well as a regular newsletter. Organisations can contact ASEM for a trusted source of advice on matters related to emergency medicine.

By joining ASEM, you are part of all this good work and you are helping it to continue. Belong with us.

Contact ASEM.org.au to get on board www.asem.org.au
CONTENTS

In this February issue

In this February issue .................................................. 3

Editorial

REBOA: Where are we now? ........................................... 4
Daniel Y Ellis

Review Article

Review article: End-of-life care for older people in the emergency department: A scoping review .......................... 7
Ya-Ling Huang, Nemat Alsaba, Gemma Brookes and Julia Crilly

Original Research

Lactate, bicarbonate and anion gap for evaluation of patients presenting with sepsis to the emergency department: A prospective cohort study ........................................... 20
Biswa Mitra, Cristina Roman, Kate E Charters, Gerard O'Reilly, Dashiel Gantner and Peter A Cameron

Effect of the introduction of C-MAC videolaryngoscopy on first-pass intubation success rates for emergency medicine registrars .................................................. 25
Stephanie Mackie, Fen Moy, Sinan Kamona and Peter Jones

Opioid prescribing in the emergency department of a tertiary hospital: A retrospective audit of hospital discharge data .............................................................. 33
Beata Stanley, Lisa J Collins, Amanda F Norman, Jonathon Karro, Monica Jung and Yvonne A Bonomo

Utility of calcium, magnesium and phosphate testing in the emergency department ........................................... 39
Patrick A Date, Jesse L Smith, William S Spencer, Erik J de Tonnerre, Michael J Yeoh and David McD Taylor

Implementation study reporting diagnostic accuracy, outcomes and costs in a multicentre randomised controlled trial of non-expert lung ultrasound to detect pulmonary oedema .................................................. 45
Kylie Baker, Stephen Brierley, Frances Kinane, Katherine Isoardi, Georgia Livesay, Geoffrey Stieler and Geoffrey Mitchell

Does fluid bolus therapy increase blood pressure in children with sepsis? .............................................................. 54
Elliot Long, Franz E Babl, Ed Oakley, Sandy Hopper, Bennett Sheridan and Trevor Duke, on behalf of the Paediatric Research in Emergency Departments International Collaborative (PREDICT)

Proactive review by the emergency department before inter-hospital transfer (the PREVENT study) .......................... 61
Biswa Mitra, Annie Carter, De Villiers Smit, Fatima Rahman, Shane O’Donovan, Alexander Olausen, Jinn Kae Pui, Jeremy Abetz, Peter Hunter and Peter A Cameron

Emergency first aid readiness in Antarctica: Australian Antarctic expeditioners’ first aid credentials and self-efficacy .................................................. 67
Jan M Wallace, Keith M Harris, Jim Stankovich, Jeff Ayton and Silvana S Bettiol

Endotracheal intubation by a specialised paediatric retrieval team .............................................................. 75
John Glasbeen, Paul Holmes, Neeta Rampersad and Sannath Raman

Anxiety and alcohol in the working-age population are driving a rise in mental health-related emergency department presentations: 15 year trends in emergency department presentations in Western Australia .................. 80
Matthew Yap, Matthew Tuson, David Whyatt and Alistair Vickery

One single large intramuscular dose of naloxone is effective and safe in suspected heroin poisoning ........................................... 88
Keith Harris, Colin B Page, Sikta Samantaray, Lachlan Parker, Andrew JA Brier and Katherine Z Isoardi

Clinical clearance and imaging for possible cervical spine injury in children in the emergency department: A retrospective cohort study ........................................... 93
Sandy M Hopper, Stewart McKenna, Amanda Williams, Natalie Phillips and Franz E Babl, on behalf of the Paediatric Research in Emergency Departments International Collaborative (PREDICT)

Impact of a ketamine sedation protocol on intubation rates and undesirable outcomes in the transport of patients with acute behavioural disturbance ........................................... 100
Roxanne Shabtahmasebi, Rich Johnson and Said Shabtahmasebi

Functional outcome and management pathways for adult patients presenting to an Australian health service with distal radius fracture ........................................... 105
Robert Meek, Ananth Sundaralingam, Matthew Shen, Aravindan Sundaralingam and Laurence Sorace
Rapid Assessment, Planning, Investigations and Discharge: Piloting the introduction of a senior doctor at triage model in an Australian paediatric emergency department .............................................................. 112
Sarah L Andrews, Stuart Lewena and John A Cheek

Thoracostomy in children with severe trauma: An overview of the paediatric experience in Victoria, Australia ... 117
Nuala Quinn, Cameron S Palmer, Stephen Bernard, Michael Noonan and Warwick J Teague

Feasibility study for implementation of resuscitative balloon occlusion of the aorta in peri-arrest, exsanguinating trauma at an adult level 1 Australian trauma centre .............................................................. 127

Paediatric Emergency Medicine

How well does the Best Guess method predict children’s weight in an emergency department in 2018–2019? ... 135
Daming Pan, Mieke Foster, Andrew Tagg, Sharon Klim and Anne-Maree Kelly

Acute Geriatrics

Older person with vague symptoms in the emergency department: Where should I begin? ....................... 141
Christine Jackman, Rohan Laging, Bridget Laging, Bridget Honan, Glenn Arendts and Katie Walker

Clinical Procedures

Large-calibre central access via the subclavian vein ........................................................................ 148
Christopher Groombridge, Amit Maini, Francis O’Keeffe, Mike Noonan, Joseph Mathew, De Villiers Smit and Mark Fitzgerald

Trainee Focus

Removing the HOCUS from POCUS: The use of point-of-care ultrasound in the emergency department ........ 151
Joanne Cobbett, Emma Carlin and Jessica Forbes

Point-of-care ultrasound in emergency department: Tips, tricks and controversies .............................. 155
Justin Bouva and Minh-Tu Duong

The good, the bad and the ugly of point-of-care ultrasound ................................................................ 158
Alistair Murray

Only credentialed physicians should be performing ultrasound in emergency department: No ........... 160
Francis Lam Cham Kee and Viet Tran

Only credentialed physicians should be performing ultrasound in emergency department: Yes ............ 162
Nicholas Erskine

Short Report

End-tidal capnography provides reliable ventilatory monitoring for non-intubated patients presenting after sedative overdose to the emergency department ....................................................... 164
Teri Millane, Shaun Greene, Joe-Anthony Rotella and Yit Hung Leang

Perspective

Coles and Woolworths have installed public access defibrillators in all their stores: It is time other Australian businesses followed their lead ................................................................. 166
Brian Haskins, Ziad Nehme, Peter Cameron, Stephen Bernard, Laura Parker-Stebbings and Karen Smith

Case Letter

When fantasy fades: A case of severe delirium due to GHB withdrawal ................................................ 169
Keith Harris, Georgia R Harburg and Katherine Z Isoardi

Letters to the Editor

Dual training in public health: Public Health Officer training in the NSW Ministry of Health ................. 171
Laksmi S Govindasamy

Operational challenges of international research collaborations ............................................................ 172
Sharon Klim, Kerrie Russell and Anne-Maree Kelly

Abdominal pain and access block: An unexpected audit finding ............................................................ 173
Carissa Herbert, Mark Hussey and Wendy Zhu

Patient specific advice for in-hospital cardiac arrest survival rates ....................................................... 174
Zakary Doherty, Kim Fuzzard, Rebecca Kippen, Belinda O’Sullivan and Laura Panozzo
