Lynchings, racial threat, and whites’ punitive views toward blacks*

In “Lynchings, racial threat, and whites’ punitive views toward Blacks” (Stewart, Mears, Warren, Baumer, & Arnio, 2018), a coding error led to misclassification of 11 counties and in turn resulted in an “N” of 90 rather than of 79 for the “southern” sample. The updated tables and figures rely on use of the correct sample of 79 counties and, by extension, inclusion of 1,301 individuals rather than of 1,441 individuals. Although the coefficients in some models differ nominally from the original published results, the main statistical and substantive results remain the same. Readers are referred to the updated tables 1, 2, 3, and 4, as well as to figures 1 and 2, in the online supporting information for the correct values. Updated numeric values for text-only statistics appear as a separate memo in the online supporting information.
