• Oncogene Addiction and Tumor Mutational Burden in NSCLCr: Clinical Significance and Limitations

• Transcriptional Regulation of Autophagy-Lysosomal Pathway in Cancer

• Immunotherapy at any line of treatment improves survival in patients with advanced metastatic Non-small cell lung cancer (NSCLC) compared with chemotherapy (Quijote-CLICaP)

• Phase II study of ramucirumab and docetaxel for previously treated non-small cell lung cancer patients with malignant pleural effusion: protocol of PLEURAM study
Treatment and research relevant to Asia Pacific are a focus, but submissions on cancer, mediastinal cancer and other thoracic malignancies. Prevention, basic, translational, and applied clinical research in lung cancer, esophageal cancer, and exchange of comprehensive and cutting-edge information on thoracic oncology and thoracic surgery is encouraged. The editors encourage contributions relevant to prevention, general thoracic surgery, medical oncology, radiology, radiation medicine, pathology and basic cancer research as well as epidemiological and translational studies in thoracic cancer. Thoracic Cancer is the official publication of the Chinese Society of Lung Cancer, International Chinese Society of Thoracic Surgery, and is endorsed by the Korean Association for the Study of Lung Cancer and the Hong Kong Cancer Therapy Society.

**Aims and Scope:** Thoracic Cancer aims to facilitate international collaboration and exchange of comprehensive and cutting-edge information on basic, translational, and applied clinical research in lung cancer, esophageal cancer, mediastinal cancer and other thoracic malignancies. Prevention, treatment and research relevant to Asia Pacific are a focus, but submissions from all regions are welcomed. The editors encourage contributions relevant to prevention, general thoracic surgery, medical oncology, radiology, radiation medicine, pathology and basic cancer research as well as epidemiological and translational studies in thoracic cancer. Thoracic Cancer is the official publication of the Chinese Society of Lung Cancer, International Chinese Society of Thoracic Surgery, and is endorsed by the Korean Association for the Study of Lung Cancer and the Hong Kong Cancer Therapy Society.
