aims and scope
Addiction Biology’s focus is based on neuroscience contributions, which aim at advancing our understanding regarding aspects on the action of drugs of abuse and addictive processes. Papers are accepted, whose content is geared towards behavioural, molecular, genetic, biochemical, neurobiological and pharmacological fields of animal experimentation and clinical research. The journal includes peer-reviewed original research reports, brief reports and reviews. Addiction Biology is published on behalf of the Society for the Study of Addiction to Alcohol and other Drugs (SSA). Members of the Society for the Study of Addiction receive the Journal as part of their annual membership subscription. For further details, please contact the Society at www.addiction-ssa.org

Wiley is a founding member of the UN-backed HINARI, AGORA, and OARE initiatives. They are now collectively known as Research4Life, making online scientific content available free or at nominal cost to researchers in developing countries. Please visit Wiley’s Content Access – Corporate Citizenship site: http://www.wiley.com/WileyCDA/Section/id-390082.html
Wiley's Corporate Citizenship initiative seeks to address the environmental, social, economic, and ethical challenges faced in our business and which are important to our diverse stakeholder groups. Since launching the initiative, we have focused on sharing our content with those in need, enhancing community philanthropy, reducing our carbon impact, creating global guidelines and best practices for paper use, establishing a vendor code of ethics, and engaging our colleagues and other stakeholders in our efforts.
