In the paper, ‘The binding selectivity of vonoprazan (TAK-438) to the gastric H⁺,K⁺-ATPase’, published in Volume 42 Issue 11–12 (December 2015). In figure 1, Vonoprazan and SCH28080 were transposed. The Vonoprazan structure should be a and SCH28080 should be b. The structure of vonoprazan was drawn incorrectly. Specifically, the N (nitrogen) was placed in the wrong phenyl ring. The correct figure 1 is shown below.

The authors apologise for this error.
