EDITORIAL PROFILES

A/PROF ADRIAN FUNG
BSC(MED) MBBS(HONS1) MMED(OPHTHALSCI) MMED(CLINEPI) AMA(M) FRANZCO

Medical Retina Section Editor

Adrian Fung is a Clinical Associate Professor of Ophthalmology and specialist in vitreoretinal surgery, medical retina diseases and posterior segment tumours of the eye. He is co-Director of the Westmead Hospital Vitreoretinal Fellowship, where he teaches training surgeons and supervises post-doctoral research fellows. He is a chief investigator of the Bionic Eye Project and has been awarded two Masters degrees in Ophthalmic Science and Clinical Epidemiology from the University of Sydney. He was trained at Sydney Eye Hospital where he was Professorial Senior Registrar and has completed clinical and research fellowships at the University of British Columbia, Vancouver; Manhattan Eye and Ear Hospital, New York; Bascom Palmer Eye Institute, Miami and Wills Eye Hospital, Philadelphia. Associate Professor Fung has published over 70 international peer-reviewed journal articles and 7 book or book chapters, including “Ophthalmic Clinical Examination” and “Vitreoretinal Surgery for Trainees (http://www.ophthalmologytextbooks.com). He has been invited to speak and teach at over 100 national and international meetings and has won awards for his contribution. He was the first vitreo-retinal surgeon in Australia to be admitted to the prestigious Macula Society in the USA. Associate Professor Fung is the course convener for Ophthalmology Updates! (www.ophthalmologyupdates.com), one of the largest ophthalmology conferences held in Sydney each year. He sits on the Sydney Eye Hospital Alumni, Ophthalmic Research Institute of Australia, RANZCO Clinical Standards, ANZSRS Surgical Registry and APVRS Young Ophthalmologists committees. He is a member of RANZCO, ANZSRS, ORA, AAO, ASRS, ARVO, Macular Society, Vit-Buckle Society, Lifeline Express International Academy, ISOO, IRGIII, IntRIS, APAO and APVRS. He is an Asia Pacific Vitreoretinal Society Leadership Development Program Mentor.

CElia CHEN MBBS MPHc PHD FRANZCO

Neuro-Ophthalmology Section Editor

A/Professor Celia Chen is a consultant neuro-ophthalmologist. She completed her medical degree at the University of Adelaide followed by a Masters of Public Health and a PhD at Flinders University. She undertook her ophthalmology training in South Australia and proceeded to a clinical and research fellowship in Neuro-ophthalmology at the Wilmer Eye Institute, Johns Hopkins Hospital.

Celia has returned to Adelaide in 2007 following her fellowship and is a consultant ophthalmologist at the Department of Ophthalmology, Flinders Medical Centre and Flinders University.

She is the recipient of both national and international scholarships and awards including the American Australian Education Fellowship, NHMRC National Institute of Clinical Studies fellowship and South Australian Science Excellence award.

FRED CHEN MBBS(HONS) PHD FRANZCO

Posterior Segment Section Editor

Doctor Fred Chen is a clinician-academic at Lions Eye Institute and Centre for Ophthalmology and Visual Science at The University of Western Australia in Perth. His doctoral thesis, “RPE transplantation in retinal diseases” awarded by University College of London in 2011 provided the proof of concept for cell therapy in macular degeneration.

After fellowship training in surgical and medical retina at Moorfields Eye Hospital, he returned to Perth to establish the Ocular Tissue Engineering Laboratory at Lions Eye Institute to study age-related macular degeneration and inherited retinal diseases. Fred has gained national and international recognition in the field of retinal clinical trials endpoint analysis, retinal cell transplantation and patient derived iPSC for disease modelling and drug development. His other research interests include uveal melanoma, retinal toxicity of systemic drugs, retinal imaging device development and epidemiology of blindness and diabetic eye disease.

He has been awarded Early Career and Career Development Fellowships for his research and has been an investigator on Project Grants and Centre of Research Excellence Grants funded by NHMRC. His research group collaborates extensively with optical engineers, computer scientists, biochemist, cell biologists, epidemiologist and clinical trialists nationally and internationally. He is currently a visiting vitreoretinal surgeon at Lions Eye Institute, Royal Perth Hospital and Perth Children's Hospital.
