EDITORIAL
321  Perspective. Digoxin for interstage single ventricle patients: What could possibly go wrong?
George F. Van Hare

STATE OF THE ART ARTICLE
324  Strategy of treating secundum atrial septal defect not referred to percutaneous closure
Fei Zhang, Yifeng Yang, Qin Wu, Wancun Jin, Haisong Bu, Sijie Wu, Tianli Zhao and Shijun Hu

REVIEW ARTICLE
331  Safety of contraceptive use among women with congenital heart disease: A systematic review
Ginnie Abarbanell, Naomi K. Tepper and Sherry L. Farr

SPECIAL ARTICLE
341  Comprehensive comparative outcomes in children with congenital heart disease: The rationale for the Congenital Catheterization Research Collaborative
Christopher J. Petit, Athar M. Qureshi, Andrew C. Glatz, Courtney E. McCracken, Michael Kelleman, George T. Nicholson, Jeffery J. Meadows, Shabana Shahanavaz, Jeffrey D. Zampi, Mark A. Law, Joelle A. Pettus and Bryan H. Goldstein

ORIGINAL ARTICLES
350  Burnout and work-life balance among pediatric cardiologists: A single center experience
Soham Dasgupta, Ishaan Dave, Courtney E. McCracken, Larry Mohl, Ritu Sachdeva and William Border

356  Electronic health record associated stress: A survey study of adult congenital heart disease specialists
Darcy N. Marchini, Bennett P. Samuel, Jessica L. Parker and Stephen C. Cook

362  Education as important predictor for successful employment in adults with congenital heart disease worldwide

372  Small unrepaired atrial septal defects display impaired exercise capacity compared with healthy peers
Sebastian Udholm, Christian Rex, Filip Eckerström, Mine Onat, Camilla Nyboe and Vibeke E. Hjortdal

380  Focal liver lesions following Fontan palliation of single ventricle physiology: A radiology-pathology case series
Emily M. Engelhardt, Andrew T. Trout, Rachel M. Sheridan, Grueschen R. Veldtman and Jonathan R. Dillman

389  Percutaneous closure of perimembranous ventricular septal defects utilizing almost ideal Amplatzer Duct Occluder II: Why limitation in sizes?
Anoosh Esmaeili, Kachina Behnke-Hall, Roland Schrewe and Dietmar Schranz

396  Exploration of the Notch3-HES5 signal pathway in monocrotaline-induced pulmonary hypertension using rat model
Xing Chen, Wu Zhou, Qinghua Hu and Lingjin Huang

403  Perspectives on advance care planning and palliative care among adults with congenital heart disease
Jill M. Steiner, Karen Stout, Laurie Soine, James N. Kirkpatrick and J. Randall Curtis

410  Extended cardiac ambulatory rhythm monitoring in adults with congenital heart disease: Arrhythmia detection and impact of extended monitoring

419  Variation in care practices across pediatric acute care cardiology units: Results of the Pediatric Acute Care Cardiology Collaborative (PACe) hospital survey
Amanda Hoerst, Adnan Bakar, Steven C. Cassidy, Martha Clabby, Erica Del Grippo, Margaret Groupe, Ashraf S. Harahsheh, Anthony M. Hlavacek, Stephen A. Hart, Alaina K. Kipps, Nicolas L. Madsen, Dora D. O'Neil, Sonali S. Patel, Courtney M. Strohacker and Ronn E. Tanel

427  S100B and its relation to cerebral oxygenation in neonates and infants undergoing surgery for congenital heart disease
Jan Hinnerk Hansen, Lydia Kissner, Jana Logoteta, Olaf Jung, W. Reid Thompson and Maureen A. Le Goff-Greif

438  Feeding methods for infants with single ventricle physiology are associated with length of stay during stage 2 surgery hospitalization
Jeannine M. Hoch, Oluwatosin Fatusin, Gayane Yanokyan, W. Reid Thompson and Maureen A. Lefton-Greif
Circulating biomarkers of left ventricular hypertrophy in pediatric coarctation of the aorta
Benjamin S. Frank, Tracy T. Urban, Karlise Lewis, Suhong Tong, Courtney Cassidy, Max B. Mitchell, Christopher S. Nichols and Jesse A. Davidson

Creatinine-based estimation of glomerular filtration rate in patients with a Fontan circulation
Thomas G. Wilson, Yves d’Udekem, David S. Winlaw, Rachael L. Cords, Julian Ayer, Thomas L. Gentles, Robert G. Weintraub, Leeanne E. Grigg, Michael Cheung, Timothy M. Cain, Padma Ran, Charlotte Verrall, Karin Du Plessis, Kathryn Rice and Ajay J. Hyengar

A better approach for left ventricular training in transposition of the great arteries and intact interventricular septum: Bidirectional cavopulmonary anastomosis and pulmonary artery banding
Mehmet Sahil Bilal, Arda Ozyuksel, Mustafa Kemal Avşar, Şener Demirok, Osman Küçükosmanoğlu and Yalim Yalcin

Accuracy of risk prediction scores in pregnant women with congenital heart disease
Yuli Y. Kim, Leah A. Goldberg, Katherine Awh, Tanmay Bhamare, David Drajpuch, Adi Hirshberg, Sara L. Partington, Rachel Rogers, Emily Ruckdeschel, Lynda Tobin, Morgan Venutti and Lisa D. Levine

Body mass index in adults with congenital heart disease
Mahmoud Zaqout, Kristof Vandekerckhove, Nathalie Michels, Laurent Demulier, Thierry Bove, Katrien Francois, Julie De Backer, Stefaan De Henauw and Daniel De Wolf

Opportunities for training to advance the care for adults with congenital heart disease with advanced circulatory failure
Christopher R. Broda

Coronary artery disease in adults with tetralogy of Fallot
Alexander C. Egbe, Sindhura Ananthaneni, Raja Jadav, Srikanth Kothapalli, Charanjit S. Rihal, Muhammad Masood, Mounika Angirekula, Maria Najam, Numra Bajwa, Karim Tarek, Jessey Matthew and Heidi M. Connolly
