Aims and Scope:
Hepatology Research (formerly International Hepatology Communications) is the official journal of the Japan Society of Hepatology, and publishes original articles, reviews and short communications dealing with hepatology. Reviews or mini-reviews are especially welcomed from those areas within hepatology undergoing rapid changes. Short communications should contain concise definitive information.

Abstracting and Indexing Services:
The Journal is indexed by Medline, ISI Current Contents/Clinical Medicine, EMBASE, Journals @ Ovid, Oncology Information Service (Leeds), SCISEARCH, Scopus

Address for Editorial Correspondence:
Editorial Office, Hepatology Research, c/o Wiley Japan, Koishikawa Sakura Bldg., 4F, 1-28-1 Koishikawa, Bunkyo-ku Tokyo 112-0002 Japan. E-mail: hepatologyresearch@wiley.com Tel: 81 3 3830 1267; Fax: 81 3 5689 7278

Volume 50  Issue 1  January 2020

Review Article
5  Changes of gut microbiota during silybin-mediated treatment of high-fat diet-induced non-alcoholic fatty liver disease in mice
  X. Li, Y. Wang, Y. Xing, R. Xing, Y. Lu and Y. Xu

Special Report
15  Report of the 20th Nationwide follow-up survey of primary liver cancer in Japan

Original Articles
Viral hepatitis
47  Rapid increase of platelet counts during antiviral therapy in patients with hepatitis C virus infection
  Y. Ishizu, M. Ishigami, K. Hayashi, T. Honda, T. Kusugai, T. Ito and M. Fujishiro

Steatohepatitis
57  Creatinine-to-bodyweight ratio is a predictor of incident non-alcoholic fatty liver disease:
    A population-based longitudinal study
  T. Okamura, T. Hashimoto, M. Hamaguchi, A. Ohara, T. Kajima and M. Fukui

Hepatocellular Carcinoma and other malignancy
67  Radiofrequency ablation for hepatocellular carcinoma: Clinical value of ultrasound–ultrasound overlay fusion for optimal ablation and local controllability

75  Safety and efficacy of lenvatinib in elderly patients with unrespectable hepatocellular carcinoma:
    A multicenter analysis with propensity score matching

84  Distinctive clinicopathological features and KRAS and IDH1/2 mutation status of cholangiocellular carcinoma
  H. Kusano, Y. Naito, Y. Mihara, R. Konno, S. Ogasawara, J. Akiba, O. Nakashima and H. Yano

92  Zinc deficiency as an independent prognostic factor for patients with early hepatocellular carcinoma due to hepatitis virus

101  Prognostic nutritional index is superior as a predictor of prognosis among various inflammation-based prognostic scores in patients with hepatocellular carcinoma after curative resection

110  Clinical significance and function of ADH1B as a tumor-suppressing gene in hepatocellular carcinoma

Liver biology/pathobiology
121  Variation in the gut microbial community is associated with the progression of liver regeneration
  Q. Liu, L. Yu, D. Chen and L. Li

Short Communication
137  Three criteria for radiological response on survival in patients with hepatocellular carcinoma treated with lenvatinib

Hepatology Research
The Official Journal of the Japan Society of Hepatology

Hepatology Research is an international journal, devoted to publishing Human and Animal studies, both basic and clinical, in the field of hepatology. Published monthly with content ranging from experimental, clinical, reviews, short communications, and case reports. Articles are also published Early View prior to issue publication. The journal welcomes submissions from researchers around the world. Preliminary notes will also be accepted, regardless of the choice of journal for final publication.
