AUTHOR GUIDELINES

GENERAL
Please read the instructions below for brief details on the Journal's requirements for manuscripts. Please visit the journal website http://wileyonlinelibrary.com/journal/jcnc for full Author Guidelines and Wiley Blackwell Author Services website, http://authorservices.wiley.com/bauthor, for further information on the submission and preparation of manuscripts and figures. Manuscripts in an incorrect format may be returned to the author.

MANUSCRIPT SUBMISSION
The Editor-in-Chief welcomes scholarly papers, including original research papers and brief reviews, on all aspects of clinical nursing, midwifery and health visiting including policy, management, education and research related to practice.

The submission and review process of JCN is handled online at http://mc.manuscriptcentral.com/jcnjr. To submit a manuscript to JCN please go to http://mc.manuscriptcentral.com/jcnjr, create an account, and submit. Complete instructions on how to submit a manuscript are available online at the Journal website http://wileyonlinelibrary.com/journal/jcnc.

CROSSTEXT
The journal to which you are submitting your manuscript employs a plagiarism detection system. By submitting your manuscript to this journal, you accept that your manuscript may be screened for plagiarism against previously published works.

MANUSCRIPT FORMAT AND STRUCTURE
All manuscripts submitted to JCN should include:

- No identifying details of the authors or their institutions present in the submitted manuscript; author details will be entered as part of the online submission process.

Title page
The title page must contain both a descriptive title and concise title of the paper, names and qualifications of the authors, their affiliations and full mailing addresses, including postal addresses, fax and telephone numbers. The title page must also contain details of the source(s) of financial support. Structured Abstract should not exceed 250 words and should accurately reflect the content of the paper. The abstract should not include references or abbreviations and should be provided under the headings: Aims and objectives; Background (stating what is already known about this topic); Conclusions (stating what this study adds to the topic); Relevance to clinical practice – THIS SECTION MUST BE INCLUDED: Keywords.

Main text of original articles should be structured as follows: Introduction (putting the paper in context - policy, practice or research); Background (literature); Methods (design, data collection and analysis); Results; Discussion; Conclusion; Relevance to clinical practice. The number of words used, excluding abstract, references, tables and figures, should be specified. Details of sources of research funding, other support, and acknowledgements should be included. Contributors to the manuscript should be indicated, by initials, at the end indicating who undertook study design, data collection and analysis, and manuscript preparation. If the research involves human subjects or information about human subjects, then the process of obtaining permission to conduct the study, including any ethical review procedures, should be described.

Review articles should be structured as follows: Introduction; Aims; Objectives and methods; Results; Discussion; Conclusion. The methods should describe the search strategy in terms of databases, search terms and date parameters. Inclusion and exclusion criteria for papers should be clearly described and the conclusions should make the relevance to clinical practice clear. The abstract should be structured as outlined above.

Research-in-brief submissions should be prepared using the following headings: Aims; Background; Methods; Results; Conclusions; Relevance to clinical practice. The RIB must not exceed 1,000 words and only one figure or one table should accompany and a maximum of five references is permitted. Authors should note that permission that should be sought from the Publisher before reproducing any part of the published paper in subsequent publications.

Commentaries
The Editor-in-Chief welcomes commentaries on papers published in JCN. These should be approximately 1000 words in length and should offer a critical but constructive perspective on the published paper. (NB. Please note that all commentaries should be emailed directly to the Editorial Assistant at jcnc@wiley.com). Please follow our guidelines when writing a commentary: http://www.blackwellpublishing.com/pdf/jcn_commentaries.pdf

Format and style
Text within the text should conform to the following convention: upper case for main headings, lower case for major sub-headings, italics for subsidiary sub-headings. Spelling should conform with that used in The Concise Oxford Dictionary and abbreviations with those in Units, Symbols and Abbreviations (1994) published by the Royal Society of Medicine Press, 1 Wimpole Street, London, W1M 8AE. Abbreviations should be used sparingly and only if a lengthy name or expression is repeated throughout the manuscript. When used, the abbreviated name or expression should be cited in full at first usage, followed by the accepted abbreviation in all subsequent uses. Quotations included appropriately within the body of the text should be marked by single inverted commas. Longer, or self-contained quotations should be preceded and followed by a double space; neither single inverted commas nor italics should then be used and the line preceding the quote should be indented. Statistical methods used should be defined and, where appropriate, supported by references. Footnotes are not permitted.

Note to NIH Grantees: Pursuant to NIH mandate, Wiley Blackwell will post the accepted version of contributions authored by NIH grant-holders to PubMed Central upon acceptance. This accepted version will be made publicly available 12 months after publication. For further information, see www.wiley.com/go/nihmandate

REFERENCES
The Editor-in-Chief and Publisher recommend that citation of online published papers and other material should be done via a DOI (digital object identifier), which all reputable online published material should have – see www.doi.org/ for more information. If an author cites articles which does not have a DOI they risk the risk of the cited material not being traceable. We recommend the use of a tool such as EndNote or Reference Manager for reference management and formatting. EndNote reference styles can be searched for here: www.endnote.com/support/enstyles.asp

TABLES, FIGURES AND FIGURE LEGENDS
Tables and figures should be adequate for review purposes, publication requires high quality images. Submit EPS (line art) or TIFF (halftone/photographs) files only. MS PowerPoint and Word Graphics are unsuitable for printed pictures. Do not use pixel-oriented programmes. Scans (TIFF only) should have a resolution of at least 300 dpi (halftone) or 600 to 1200 dpi (line drawings) in relation to the reproduction size (see below). Please submit the data for figures in black and white or submit a Colour Work Agreement Form (see Colour Charges below). EPS files should be saved with fonts embedded (and with a TIFF preview if possible). For scanned images, the scanning resolution (at final image size) should be as follows to ensure good reproduction: line art: >600 dpi; halftones (including gel photographs): >300 dpi; figures containing both halftone and line images: >600 dpi. Full details are available online at the Journal website http://wileyonlinelibrary.com/journal/jcnc

COLOUR CHARGES
It is the policy of JCN for authors to pay the full cost for the reproduction of their colour artwork. Therefore, please note that if there is colour artwork in your manuscript when it is accepted for publication, Wiley Blackwell require you to complete and return a Colour Work Agreement Form: http://www.blackwellpublishing.com/pdf/SN_Sub2000_X_CoW.pdf before your paper can be published. Any article received by Wiley Blackwell with colour work will not be published until the form has been returned.

ACCEPTANCE OF A MANUSCRIPT FOR PUBLICATION
When your paper is accepted, both JCN and Wiley Blackwell give no commitment about date of publication. Therefore, while we can inform you of a likely date in the event of an enquiry, we are unable to accommodate individual requests to have papers published at a particular time to coincide with, for example, the requirements of grant awarding bodies or promotion boards.

Copyright: Authors submitting a paper do so on the understanding that the work has not been published before, is not being considered for publication elsewhere and has been read and approved by all authors. A completed Copyright Transfer Agreement (CTA), found at www.wiley.com/go/ctaaglobal, must be received before any manuscript can be published. Authors must send the completed original CTA by regular mail upon receiving notice of manuscript acceptance, i.e. do not send the CTA at submission. For questions concerning copyright, please visit Wiley Blackwell Copyright FAQ.

Permissions: If all or parts of previously published illustrations are used, permission must be obtained from the copyright holder concerned. It is the author's responsibility to obtain these in writing and provide copies to the Publisher.

PROOFS
The corresponding author will receive an e-mail alert containing a link to download their proof as a PDF (portable document format).

OFFPRINTS
To avail offprints, please visit: http://www.sheridan.com/wiley/eoc
Author services: For more substantial information on the services provided for authors, please see http://authorervices.wiley.com/bauthor

ONLINE OPEN
Journal of Clinical Nursing accepts articles for Open Access publication. Online Open is available to authors of primary research articles who wish to make their article available to non-subscribers on publication, or whose funding agency requires grantees to archive the final version of their article. With OnlineOpen, the author, the author's funding agency, or the author's institution pays a fee to ensure that the article is made available to non-subscribers upon publication via Wiley Online Library, as well as deposited in the funding agency's preferred archive. For the full list of terms and conditions, see http://wileyonlinelibrary.com/onlineopen#OnlineOpen_Terms

Any authors wishing to send their paper OnlineOpen will be required to complete the payment form available from our website at: https://onlineibrary.wiley.com/onlineopenOrder

Prior to acceptance there is no requirement to inform an Editorial Office that you intend to publish your paper OnlineOpen If you do not wish to do so, OnlineOpen articles are treated in the same way as any other article. They go through the journal's standard peer-review process and will be accepted or rejected based on their own merit.
