ANNOUNCEMENTS

ISTH News and Updates: Join the ISTH Today

Join the ISTH or renew become part of an influential network of 5000 medical professionals in the fields of thrombosis and hemostasis. Don’t miss this opportunity to obtain access to a variety of benefits that will advance your career and increase your knowledge.

Join the ISTH to deepen and broaden your expertise. Membership benefits include an international network that spans 100 countries, priority registration and meeting discounts, complimentary subscription to JTH, e-learning opportunities through the ISTH Academy, access to the ISTH members-only online resources, eligibility to hold elected and/or appointed offices, career center and much more. If you plan to attend the ISTH 2019 Congress or any other ISTH meeting, then the discounts on registration alone are worth the cost of membership.

Categories of membership are:

- Regular: $160/year
- Associate: $80/year
- Allied Health Professional: $35/year
- Nurse: $35/year
- Reach-the-World: $35/year
- Medical Resident/Post Doc: $35/year
- Student: Free

To become a member, please visit isth.org. You may also contact ISTH Membership at membership@isth.org or +1 919 929 3807.

REGISTER FOR THE ISTH HIGHLIGHTS OF THE 2019 CONGRESS IN PHILADELPHIA

If you were unable to visit Australia for the ISTH 2019 Congress, but still want to learn the latest science in thrombosis and hemostasis, then join us for the Official Highlights of the ISTH 2019 Congress in Philadelphia, November 9-10, 2019. Register at isth.org/2019Highlights.

ISTH ANNOUNCES NEW GLOBAL EDUCATION INITIATIVE IN GENE THERAPY FOR HEMOPHILIA

The ISTH announced the official launch of Gene Therapy in Hemophilia: An ISTH Education Initiative. This landmark launch, the first of its kind in hemophilia, took place during the ISTH 2019 Congress in Melbourne, Australia, July 6-10, 2019.

As gene therapy emerges as a potential new treatment for patients with hemophilia, the ISTH recognizes an immediate need to educate clinicians and scientists in the global hemophilia healthcare community. In early 2019, the ISTH organized the ISTH Gene Therapy for Hemophilia Steering Committee, a group of world-renowned experts, led by Flora Peyvandi, M.D., Ph.D., and David Lillicrap, M.D., to survey the global hemophilia healthcare community to identify unmet educational needs specific to gene therapy in hemophilia. The ISTH Gene Therapy for Hemophilia Steering Committee utilized the results of the survey, with input from others, to design a dynamic educational roadmap to guide the evolution of the gene therapy education program.

Gene Therapy in Hemophilia: An ISTH Education Initiative is supported by educational grants from BioMarin, Pfizer, Inc., Shire, Spark Therapeutics, and uniQure, Inc. For more information, visit genetherapy.isth.org.

SAVE THE DATE FOR ISTH 2020 IN MILAN ITALY

Plan to attend the XXVIII Congress of the International Society on Thrombosis and Haemostasis (ISTH), taking place in Milan, Italy from July 11-15, 2020. It is the 28th Congress overall and features the 66th annual Scientific and Standardization Committee (SSC) meeting.

We know that the science of today is the innovation of tomorrow, and ISTH Congresses are the epicenter of all the newest science in the field of thrombosis and hemostasis. Plan to join us in 2020. Visit isth2020.org for more details.

LOOKING TO ENGAGE WITH COLLEAGUES IN RESEARCH? VISIT THE ISTH REDCAP PAGE

REDCap is a mature, secure web application for building and managing online surveys and databases. The ISTH installation of
REDCap supports the ongoing efforts of ISTH Member projects and the Scientific and Standardization Committee Subcommittees’ projects.

The ISTH REDCap platform can be accessed at redcap.isth.org. Members that wish to use the REDCap installation should contact education@isth.org.

BEGIN THE NEW ONLINE COURSES ON ACQUIRED THROMBOCYTOPENIA AND PERIOPERATIVE MANAGEMENT

The ISTH Academy has launched two new online courses: Perioperative Management of Patients Who Are Receiving Anticoagulant Therapy and another course on Acquired Thrombocytopenia. Both courses are accredited and available now to ISTH members. Learn more and begin a course at academy.isth.org.

EXPAND YOUR ONLINE EDUCATION WITH THE ISTH ACADEMY

The ISTH Academy is an online database featuring dozens of webinars and more than 100 recorded presentations from past ISTH meetings. It also features an interactive clinical core curriculum, a venous thrombosis course and access to all JTH articles.

To access, simply log into the ISTH Academy at academy.isth.org or log in to the App using your ISTH username and password. If you are not an ISTH member, join today or you may also secure a free ISTH Academy membership, which provides limited access to content. Visit isth.org/membership to become a member.

Watch recorded webinars and presentations from any device, anywhere with the convenience of the ISTH Academy. Get started at academy.isth.org.

SUBMIT NOW TO RPTH, THE OPEN ACCESS JOURNAL FROM ISTH

The ISTH open access journal, Research and Practice in Thrombosis and Haemostasis (RPTH), is accepting submissions. Complementing the Society’s flagship journal (JTH), RPTH provides an innovative open access platform for science and discourse among researchers, clinicians, nurses, allied health professionals, and patients. RPTH is interested in basic, clinical, translational and population or public health research. RPTH is now indexed on PubMed Central. Submit your research today at rpth.isth.org.

The ISTH is excited to serve the needs of the global scientific community and for the opportunity to make important scientific findings more accessible than ever before using this open access publishing venue. Follow RPTH on Twitter @RPTHJournal to get regular updates.

PARTICIPATE IN FREE LIVE WEBINARS FROM THE ISTH ACADEMY

The ISTH hosts a series of webinars on practical thrombosis and hemostasis issues that scientists and physicians frequently confront. Visit isth.org/webinars to register for an upcoming webinar.

Topics include: Neutrophil extracellular traps, protein C deficiency and inhibitors in hemophilia.

Archived webinars are also available at academy.isth.org.

ISTH CAREER CENTER OFFERS HUB FOR JOB SEEKERS AND EMPLOYERS

The ISTH is proud to unveil the new ISTH Career Center, your source for jobs in thrombosis and hemostasis. Search thousands of positions or post new jobs to attract quality talent and experience from our impressive membership database.

As a new feature, ISTH members can customize their search to specific fields or types of work and save that search as a ‘Job Alert’ that will be emailed to them when new positions are posted. Start your search and learn more at jobs.isth.org.

APPLY TO HOST AN ISTH-SPONSORED EDUCATION COURSE OR SYMPOSIUM

The ISTH works with national societies as well as established experts around the world to offer educational courses customized to the scientific/medical needs, cultures and learning styles of target participants.

These efforts are focused primarily on developing countries (countries classified by the World Bank as low-income, lower-middle-income, or upper-middle-income). However, the ISTH also organizes and/or sponsors educational courses in industrialized countries. Support includes:

- Offering guidance on program development
- Engaging key international speakers for proposed courses
- Covering expenses that would not be covered otherwise, such as speakers’ airfare and accommodation
- Promoting courses

Have you identified a clear need for an educational course? Apply at isth.org/EducationCourses
