Effect of outliers on volatility forecasting and Value at Risk estimation in crude oil markets 276
Himanshu Sharma and Selvamuthu Dharmaraja

On the interaction between energy price and firm size in Indian economy 300
Rajesh H Acharya and Anver C Sadath

Analysing the efficiency of renewable energy consumption among oil-producing African countries 316
Ishmael Ackah, Oluwafisayo Alabi and Abraham Lartey
The OPEC Energy Review is a quarterly energy journal published by the OPEC Secretariat in Vienna. Each issue consists of a selection of original well-researched papers on the global energy industry and related topics, such as sustainable development and the environment. The principal objective of the OPEC Energy Review is to provide an important forum that will contribute to the broadening of awareness of these issues through an intellectual exchange of ideas. Its scope is international.

The three main objectives of the publication are to:
1. Offer a top-quality original research platform for publishing energy issues in general and petroleum related matters in particular.
2. Contribute to the producer-consumer dialogue through informed robust analyses and objectively justified perspectives.
3. Promote the consideration of innovative or academic ideas which may enrich the methodologies and tools used by stakeholders.

Recognizing the diversity of topics related to energy in general and petroleum in particular which might be of interest to its readership, articles covering relevant economics, policies and laws, supply and demand, modelling, technology and environmental matters will be considered.

The OPEC Energy Review welcomes submissions from academics and other energy experts. Prospective authors wishing to submit papers should refer to the page entitled ‘Submissions of papers to the OPEC Energy Review’ at the back of each issue. This contains all the relevant details.

All correspondence about subscriptions should be sent to John Wiley & Sons, which publishes and distributes the quarterly journal on behalf of OPEC.
