

**Call for papers: Covid-19 and the Australian Macroeconomy****Submission deadline: 31 March 2022**

The COVID-19 pandemic and associated public health policies have profoundly disrupted global and Australian economic activity. This special issue aims to stimulate academic and policy discussion to inform policymakers on the effect of Covid-19 on the Australian macroeconomy broadly defined. We welcome empirical and/or policy-relevant papers that focus on the impact of the pandemic on the Australian macroeconomy. Areas of interest include but are not limited to:

- the macroeconomic consequences of the pandemic
- economic modelling during the pandemic
- fiscal and/or monetary policy responses to the pandemic
- the impact of the pandemic on financial markets and financial stability
- the short- and long-term economic effect of public health measures
- the effect of the pandemic on public debt and fiscal sustainability
- the distributional (including sectoral, regional, gender or age) effects of the pandemic and associated policies

If you are interested in contributing, please submit a paper by **31 March 2022** using our online submission system (<https://mc.manuscriptcentral.com/ecpa>). We welcome manuscripts in all four categories: Original articles, letters, reviews, and policy papers.
