

ISMRM Journals

Copyright Transfer Agreement and Authorship Criteria

1. *Purpose.* The undersigned Individual Author/Employer desires to have the International Society for Magnetic Resonance in Medicine ("ISMRM"), a non-profit corporation, consider the Work for publication in one of its professional journals. ISMRM requires that the copyright owner (who may be an Individual Author or Employer) assign and transfer rights to ISMRM as specified in this Agreement. In those cases where the Work is a work made for hire, ISMRM requires the Employer of the Author of the Work to assign and transfer those rights to ISMRM. Neither the Individual Author nor the Employer shall receive any royalty or other monetary compensation from ISMRM or the Publisher for the rights transferred by this Agreement. In the event that the Work is not accepted for publication, this Agreement shall be null and void.

2. *The Work.* For the purposes of this Agreement, "Work" is defined as the work produced by the Author which is the subject of this Agreement and is entitled, or tentatively entitled:

3. *Transfer and Assignment of Rights.* In consideration of the Work being reviewed for publication in ISMRM professional journals, the undersigned Individual Author/Employer transfers and assigns to ISMRM all rights of any kind in the Work, including those rights protected by the copyright laws of the United States or of any other country. The rights also include the right to publish, republish, transmit, sell, distribute and otherwise use the Work and the material contained in the Work in any electronic and print editions of ISMRM professional journals and in any derivative work - throughout the world, in all languages and in all media of expression now known or later developed, and to license or permit others to do so.

4. *Retained Rights.* Notwithstanding the above, the Individual Author/Employer retains all proprietary rights other than copyright, such as patent rights, in any process, procedure or article of manufacture described in the Work, and the right to make oral presentations of material from the Work.

5. *Other Rights Granted Back.* ISMRM grants back the following:

5.1. The rights to share with colleagues print or electronic "preprints" of the unpublished Work, which preprints may be posted as electronic files on the Individual Author's own web site for personal or professional use, or on the Individual Author's or Employer's internal university or corporate network/intranet, or secure external web site at the Individual Author's or Employer's institution, but not for commercial sale or for any systematic external distribution by a for-profit third party. Prior to publication, the Individual Author shall include an appropriate notice on the preprint identifying it as a preprint. After publication of the Work, the notice shall be appropriately amended to include citation information for the final version of the Work as published in the print edition of the

Journal and should provide an electronic link to the Journal's WWW site. The Individual Author or Employer shall not update the preprint or replace it with the published version of the Work.

5.2. The right for Individual Authors, without charge, to photocopy or to transmit online or to download, print out and distribute to a colleague a copy of the published Work in whole or in part, for the Individual Author's personal or professional use, for advancement of scholarly or scientific research or study. Individual Authors and Employers may also distribute the Work for corporate informational purposes and may include the Work in information packages included with software and other products offered for license or sale.

5.3. The right to republish, without charge, in print format, all or part of the material from the published Work in a book written or edited by the Individual Author.

5.4. The right to use selected figures and tables, and selected text (up to 250 words, exclusive of the abstract) from the Work, for the Individual Author's own teaching purposes, or for incorporation within another work by the Individual Author.

5.5. The right to include the Work in a compilation for classroom use (course packs) to be distributed to students at the Individual Author's institution free of charge or to be stored in electronic format in data rooms for access by students at the Individual Author's institution as part of their course work and for in-house training programs at the Individual Author's employer.

6. *Individual Author/Employer Representations.* The Individual Author/Employer represents and warrants that the Work is the Individual Author/Employer's original work and that the individual signing this Agreement has full authority to sign and transfer all rights specified in this Agreement and that the Work contains no libelous statements, statements which infringe upon the privacy rights of others, material containing any matter which might be harmful to others or material which is otherwise unlawful. Further, the Individual Author/Employer warrants the Work has not been previously published except for excerpts for which permission has been obtained for the publication of the Work as contemplated by this Agreement. If the Individual Author prepared the Work with others, each co-author is required to sign this Agreement as a separate Individual Author.

7. *Authorship Criteria:* ISMRM Journals use the authorship criteria described by the International Committee of Medical Journal Editors (ICMJE), which state that authorship credit should be based on:

- 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data;
- 2) drafting the article or revising it critically for important intellectual content; and
- 3) final approval of the version to be published.

Authors signing this form attest that they meet authorship criteria 1, 2, and 3 for the Work.

8. *U.S. Government Employees.* A Work prepared by a U.S. government employee, as part of the employee's official duties, or which is an official U.S. Government publication is called a "U.S. Government work," and is in the public domain in the United States. In such case, the employee shall sign the certification on page 5.

9. *Signing This Agreement.* This Agreement must be signed by each Author or each Employer. If the Work was prepared by a U.S. Government employee as part of the employee's duties, the employee must sign the certification on page 5. Use additional forms, if necessary.
