**1. Authorship Responsibility:** By signing this document, I certify that I have participated sufficiently in the conception and design of this work, the analysis of the data (where applicable), as well as the writing of the manuscript, to take public responsibility for it. I represent to the best of my knowledge that the manuscript represents our valid original work. I have reviewed this manuscript (original version) and approve its submission. If I am listed above as corresponding author, I will provide all authors with information regarding this manuscript and will obtain their approval before submitting any revision. Neither this manuscript nor one with substantially similar content under my authorship has been published, has been submitted for publication elsewhere, or will be submitted for publication elsewhere while under consideration by *CA: A Cancer Journal for Clinicians*. Furthermore, I attest that I shall produce the data on which the manuscript is based for examination by the editors or their assignees should they request it. The undersigned author(s) also represent to the best of their knowledge that this Work contains no libelous or unlawful statements, does not infringe on the rights of others, or contain material or instructions that might cause harm or injury.

**2. Copyright Transfer Agreement:**

**A. Copyright**

1. I hereby assign and transfer to the American Cancer Society, Inc. (the "Society"), during the full term of copyright and any extensions or renewals of that term, all of the rights and interest in and to the copyright of the Work, including but not limited to the right to publish, republish, transmit, sell, distribute and otherwise use the Work or any portion thereof in electronic and print editions of *CA: A Cancer Journal for Clinicians* and in derivative works throughout the world, in all languages (including all media both now known and later developed), and to license or permit others to do so.

2. Reproduction, posting, transmission or other distribution or use of the Work or any material contained therein, in any medium as permitted hereunder, shall include a citation to *CA: A Cancer Journal for Clinicians* and an appropriate credit to Wiley-Blackwell as Publisher, suitable in form and content as follows: (Title of Article, Author, *CA: A Cancer Journal for Clinicians*, and Volume/Issue Copyright © [year] American Cancer Society, Inc.).

## **B. Retained Rights**

Notwithstanding the above, the Author(s), or, if applicable, the Author'(s) employer retains all proprietary rights other than copyright, such as patent rights, in any process, procedure or article of manufacture described in the Work, and the right to make oral presentations of material for the Work.

## **C. Other Rights of Author**

The American Cancer Society, Inc., grants back to the Author(s) the following:

1. The right, without charge, to photocopy or download, print out and distribute to a co-Author or colleague a copy of the published Work in whole or in part, for that Author's personal or professional use, for the advancement of scholarly or scientific research or study.
2. The right to republish, without charge, in print format, all or part of the material from the published Work in a book written or edited by the Author(s).
3. The right to use selected figures and tables, and selected text (up to 250 words, exclusive of the abstract) from the Work, for the Author'(s) own teaching purposes, or for incorporation within another work by the Author(s) that is made part of an edited work published (in print or electronic format) by a third party, or for presentation in electronic format on an internal computer network or external Web site of the Author(s) or the Author'(s) employer.
4. The right to include the Work in a compilation for classroom use (course packs) to be distributed to students at the Author's institution free of charge or to be stored in electronic format in datarooms for access by students at the Author's institution as part of his/her course work (sometimes called "electronic reserve rooms") and for in-house training programs at the Author's employers' facilities.

## **D. Works Owned by Employer**

1. If the work was written by the author in the course of the author's employment (as a "work-made-for-hire" in the course of employment), the work is owned by the company/employer, which must sign this Agreement (in addition to the author's signature) in the space provided below. In such case, the company/employer hereby assigns to the American Cancer Society, Inc. during the full term of copyright all copyright in and to the work for the full term of copyright throughout the world as specified in paragraph A above.
2. In addition to the rights specified as retained in paragraph B above and the rights granted back to the author pursuant to paragraph C above, the American Cancer Society, Inc. hereby grants back, without charge, to such company/employer, its subsidiaries and divisions, the right to make copies of and distribute the published work internally in print format or electronically on the company's internal network. Upon payment of Wiley-Blackwell's reprint fee, the institution may distribute (but not resell) print copies of the published work externally. Although copies so made shall not be available for individual re-sale, they may be included by the company/employer as part of an information package included with software or other products offered for sale or license. Posting of the published work by the institution on a public access website may only be done with Wiley-Blackwell's written permission, and payment of any applicable fee(s).

## **D. Government Contracts**

In the case of a work prepared under U.S. Government contract or grant, the U.S. Government may reproduce, without charge, all or portions of the work and may authorize others to do so, for official U.S. Government purposes only, if the U.S. Government contract or grant so requires. (U.S., U.K. Government Employees: see note at end).

## **F. NIH-Funded Research**

Wiley-Blackwell will post the accepted version of articles by NIH grant-holders to PubMed Central upon acceptance by the journal on the authors' behalf. This accepted version will be made publicly available 12 months after publication. The NIH mandate applies to all articles based on research that has been wholly or partially funded by the NIH and that are accepted for publication on or after April 7, 2008.

## **G. Copyright Notice**

The Author(s) and company/employer agree that any and all copies of the Work or any part thereof distributed shall include the notice of copyright as stipulated in *CA: A Cancer Journal for Clinicians* and a full citation to *CA: A Cancer Journal for*

*Clinicians* as published by Wiley-Blackwell. **If the Work is determined to be copyrightable at a later date, then copyright and all rights included in this will be transferred to the Society.**

The Author(s) and the company/employer agree that any and all copies of the Work or any part thereof published under the terms set forth above will include a notice of copyright in the name of the American Cancer Society, Inc., and a citation to *CA: A Cancer Journal for Clinicians*.

**US Government work**

**Note to US Government Employees**

A work prepared by a U.S. federal government employee as part of the employee's official duties is called a "U.S. Government work," and is in the public domain in the United States. In such cases, Section 2 of this form does not apply. Outside the U.S., Wiley-Blackwell may secure copyright to the extent authorized under the domestic laws of those foreign countries, subject to a paid-up, nonexclusive, irrevocable worldwide license to the U.S. Government in such copyrighted work to reproduce, prepare derivative works, distribute copies to the public and perform publicly and display publicly the work, and to permit others to do so. If this work was not prepared as part of the employee's duties, it is not a U.S. Government work.

**UK Government work (Crown Copyright)**

**Note to UK Government Employees**

The rights in a work prepared by an employee of a U.K. government department, agency or other Crown body as part of his/her official duties, or which is an official government publication, belong to the Crown. In such case, the Publisher will forward the relevant form to the employee for signature.

**3. Financial Disclosure:** By signing this document, I certify that any affiliations with or involvement (either competitive or amiable) in any organization or entity with a direct financial interest in the subject matter or materials discussed in the manuscript are noted below (e.g., employment, consultancies, stock ownership, honoraria, expert testimony, patent applications and/or ownership, etc.). Otherwise, my signature indicates that I have no such financial interest. All financial research or project support is identified in an acknowledgment in the manuscript (including any NIH funding and NIH grant numbers). Any disclosures listed below must also appear on the title page of the manuscript.

**Statement of Financial Interest:** (If more space is required, submit a signed attachment.)
